

I would like to ask that when you are considering taking the FM translators off the air, in order to use LPFM stations, that you would not use the LPFM stations. The FM station in my area, AIR 1, is a wonderful part of my community, and I would hate to see it go. AIR 1 is the only Christian music station of its kind in my area, and the encouragement it brings is very important to the people. This issue of keeping AIR 1 on the FM station is in the public interest because so many people turn to the station for help, encouragement and prayer. Thank you.
